

APM Terminals Mumbai

LIFTING INDIA'S TRADE

- **Safe & Reliable Operations**
- **Multiple Sailings every week**
- **Congestion Free Terminal**
- **Berthing on Arrival**

“Partnering in India’s Growth”

Navi Mumbai, Nhava Sheva: Located in India’s financial and commercial capital Mumbai, APM Terminals Mumbai is the most preferred container terminal on the West Coast of India due to good road and rail connectivity combined with world class infrastructure and customer oriented approach.

Containers arriving via Road/Rail

- **Quick Road movements through our 12 lane gate complex, serving 30 Container Freight Stations (CFS)**
- **Smooth evacuation of freight trains/ICD cargo, handling multiple trains daily via our integrated rail sidings and serving all Rail Operators**

Safety is top priority at the terminal and both employees and contractors alike are trained and monitored at regular intervals to ensure high levels of safety compliance.

Aware of the impact of its operations on the environment, the terminal considers environment a yardstick no less than profitable growth. A string of eco-friendly initiatives implemented at the terminal has seen the terminal reduce its carbon emissions year-on-year.

ADVANTAGE Nhava Sheva

- JN Port is one of the four ports wherein 24X7 (round-the-clock) Customs Clearance has begun, removing the major constraints of International trade. This facility would reduce transaction time and cost, help Exporters meet stringent delivery schedule and reduce congestion.
- With the on-going dredging of the Harbour channel at JN Port Reliability will further improve Capacity/ Shipping Space. APM Terminals Mumbai eagerly looks forward to make optimum use of its resources to partner in India’s growth.
- [Dedicated Freight Corridor for exclusive cargo traffic movement.](#)
- Infrastructure available to service bigger vessels.
