“Safety” - A way of Life!

Reemphasizing personal responsibility for safety in the workplace APM Terminals Mumbai observed this year’s Global Safety Day with the theme “Intervention- If you see it- You own it”. Personal responsibility to avert risk has been a key component of this year’s APM Terminals Global Terminal Network Safety Performance commitment.

Series of events propagating Safety Awareness were lined up for the week with employees volunteering to educate students at a local school in Navin Sheva on inculcating ‘Safety Culture’ in everyday life.

Over 50 employees and contractors participated in a blood donation camp organized within the terminal.

More than 100 internal Tractor Trailer (TT) drivers benefited through a training organized on Defensive driving, addressing issues in road safety hazards inside/outside the terminal, behavioral issues for not complying with safety rules, importance of wearing seat belts and Personal Protective Equipment (PPE) and following safety rules inside the terminal. External TT drivers are also trained at regular intervals both inside the terminal and also at their workplace.

The week culminated with practical on-the-job training on risks associated with fire.

Being aware that ownership ties in well with the activities at the terminal and acts as a catalyst to prevent accidents in the workplace, these initiatives help in communicating zero tolerance to unsafe acts/ conditions.

So to all of you, we say, **Keep Safe!**

Loading and offloading good news and cargo

The on-going dredging of the channel will ensure improved access for larger container ships calling the Jawaharlal Nehru Port. It's time to gear up those boxes as opportunities for growth is back.
