## LIFTING INDIA'S TRADE

- **Bigger Ships: More Containers – More Business**
- **Safety For All**
- **Inside View : The (Container's) Export Cycle**
- **Client's Speak : Mr. Hee – Jeong Chai, Managing Director, Hanjin Shipping (India) Pvt. Ltd.**

# Bigger Ships: More Containers – More Business

**Navi Mumbai, Nhava Sheva:** With the capital dredging underway at Nhava Sheva's Jawaharlal Nehru Port (JNPT) ever larger container ships are making their way into the Port.

JN Port is a tidal port which had a draft of 12.5 meters. The ongoing dredging has deepened the draft to 13 meters. APM Terminals Mumbai is already catering to 9,000 TEU's vessels since the beginning of 2013. By the beginning of next year, the channel is expected to be dredged to 14 meters plus.

Dredging is extremely important to the Port to create deeper access or berths, translating an increase in volumes handled in the port and growth of India's EX-IM Trade.

Coupled with excellent hinterland connectivity, good infrastructure and advanced equipment APM Terminals Mumbai offers Shipping Lines world class productivity with faster turnaround for their vessels.

As the terminal offers multiple sailings to Shipping Lines every week, the dredging will increase Reliability and further improve Capacity/ Shipping Space.

APM Terminals Mumbai continuously strives to better its service offering to Clients by way of Safe and Efficient Operations and Transparent Tariffs to help Clients grow their business in India's busiest port.

# Safety For All

APM Terminals Mumbai takes pride in being a part of the APM Terminals global ports and container terminals portfolio.

APM Terminals is fully committed to constantly developing and refining its safety management systems and working closely together with employees and stakeholders. The Company lays a lot of emphasis on constant research and improvement to ensure that all employees and users return home from work safely every day. It is our license to operate!

At APM Terminals Mumbai, we have tried eliminating the conventional risks associated with working in an environment where machinery and loads are constantly on the move.

A dedicated approach road to the terminal not only guarantees Clients continuous free flow of cargo –but most importantly Safe entry/ exit for all concerned. The terminal is committed to ensure that there will be no compromise in Safety, still continuing with efficient operations.

In its recent Safety initiatives to reduce man machine interface at the Gate Complex of APM Terminals Mumbai, a secured elevated walkway has been constructed wherein Transporters and other users are able to approach Customs office in a safe manner.

Representatives from the Nhava Sheva Container Operators' Welfare Association (NSCOWA) and Maharashtra Heavy Vehicle & Interstate Container Operator's Association (MHVICOA) along with APM Terminals Mumbai Management recently inaugurated the walkway.

The dedicated and congestion free approach road to GTI has helped in creating opportunities for EX-IM cargo growth in Nhava Sheva. To ensure unhindered cargo flow and provide basic facilities to tractor trailer drivers moving your boxes, the terminal has built restrooms, porta cabins etc.

Constantly engaging employees and stakeholders has yielded in APM Terminals Mumbai jointly working towards Safety as a way of life, and it is encouraging to note that stakeholders understand that Safety is top priority at APM Terminals Mumbai.

# Inside View: The (Container's) Export Cycle

Round-the-clock operations and advance planning ensure that your containers routing and arrangement of tractor trailers etc are planned as per date wise schedule at APM Terminals Mumbai.
