5) Do all DPD and AEO certified importers have to pay THC to the Terminal?

As per PN 11 / 2020, registered DPD importers having AEO status have a choice to pay TAMP approved THC’s either to the Terminal or pay through shipping lines as per their tariff / commercial dealing with importers and shipping line.

THC’s and other charges will be billed to shipping lines unless and until prior written consent in the prescribed format is received by the importer.

6) Does an importer require to keep a security deposit with the Terminal?

Maintaining a security deposit is not mandated by the PN.

The Terminal does recommend maintenance of a security deposit in line with Terminal’s commercial policy. Please contact concerned person at Terminal who will gladly advise you in this matter.

7) **What is a PDA? Why does it need to stay positive? What is the impact of a negative PDA?**

A PDA is a statement sent in advance to a ship’s port call, consisting of estimates that are likely to be incurred. This includes estimates of all those charges that are applicable to your imports as described above.

As per Section 58 of Indian Major Port Trust Act, 1963 - Rates in respect of goods to be landed shall be payable immediately on the landing of the goods. Choice to pay THC to the Terminal is irrespective of the DPD delivery option exercised by the importer.

9) **Do Importers will have the option to pay Shipment-wise THC?**

   *i.e. THC payment of consignment A to Shipping Line & other consignments to the Terminal.*

   Terminal is not a party to terms of shipment between carrier and importer nor does it have any visibility about the same.

   Hence, if importer, exercises the option to pay THC to the Terminal, the option will be exercised for ALL shipments arriving at the Terminal.

    PD Account is operated at registered entity level only.

One PD Account per registered DPD a/c having AEO status is adequate for all financial transactions with the Terminal.
